

MUSIC EDUCATION - BAND

Band Participation

Participation in the M.S.A.D. #49 bands shall be open to qualified students of the district in Grades 7-12. All students participating shall be expected to adhere to the following standards, as well as those which may be imposed by the administration. The following code of conduct will apply as it does to all co-curricular activities:

- A. Reasonable proficiency and behavior;
- B. Willingness to participate when requested, and only excused by a reason satisfactory to the director; and
- C. Regular attendance at rehearsals, and demonstrated attitude of interest and enthusiasm.

Suspension or expulsion from a band must be in accordance with State law and board policy.

Band performances will be at the discretion of the director and the building principal except those activities which require being away during school hours or overnight. Any activity of that type will require the concurrence of the board.

Sunday Activities

No school organization shall rehearse, practice or participate in any activities on Sunday, with the exception of those authorized by the administration. These shall be planned in such a manner and at such times when they will not interfere with regular church services. Deviations may be made on an individual basis by board action or the superintendent.
