

Weighted Grades for High School Courses

Any student who enrolls in and successfully completes an advanced placement, honors or college class will receive a weighted grade for the course. The grade in the course will be multiplied by a weighting factor of 1.2 for advanced placement courses and will be multiplied by a weighting factor of 1.15 for (LHS) honors, dual enrollment and external college classes.

Upon request, Lawrence High School will report for any student, who has authorized the release of such information, both the weighted and unweighted grade point averages (GPA) and class rank to any post-secondary institution that requests such information.

Approved: November 1, 2012
