

STUDENT HEALTH SERVICES AND SAFETY

Health Program

The health program shall include, but not be limited to:

- A. Health screening for vision and hearing to be conducted in accordance with the Maine School Health Manual
- B. Physical check-ups to all students participating in interscholastic sports
- C. Checking referral cases for first aid and contagious diseases

Student Accident Insurance

At the beginning of the school year, students are offered an opportunity to purchase an accident policy.

Supervision of Students

It shall be the duty of the principal at each school to provide for active supervision of the students in attendance at school from the time they arrive at school in the morning until they leave by bus or on foot at the close of the school day. Students permitted to remain after school for school activities shall be under faculty supervision.
