## TAXES ON STIPENDS

The IRS released direction this month that stipends that are paid separately from a regular payroll check must have a Federal tax withholding rate at 22% and a State of Maine tax withholding rate of 5%. Because of federal regulations, future stipends will be included in the regular payroll check at the employee's respective withholding rate. The option to have a separate check will no longer be available. Those who elected separate checks for 2017-18 will be affected by this change beginning with the 2/21/18 payroll.
